KEYMACRO allows you to create custom macros that execute one or more keyboard commands. It is designed to be the fastest way to perform common computer tasks. Keyboard mnemonics can be used to quickly select icons, web sites, files, and folders. For example, I use MACRO123 as the shortcut key to quickly select Music from the Start Menu. The keyword shortcuts are always active. The game includes a new level of difficulty for regular Mario levels. Mario levels from the New Super Mario Bros. series are now much more difficult to complete. On a regular level there are 3 moves to make, now there is 4. On a very hard level, there are 9 moves. The game also allows you to use power ups, which have changed. Instead of having a bomb, you have a special gun, which works differently from the bomb. Items are collected by touching them on the level, which is different from the normal play. Keyboard mnemonics can be used to quickly select icons, web sites, files, and folders.
