The Dashboards Manager can manage multiple views of a single Dashboard, and offers the features required to customize and facilitate the creation of Dashboards with diverse functions. We support a full application lifecycle for Dashboards. From creation, to design to deployment, with SharpShooter Dashboards you can quickly create many types of Dashboards to meet your development needs. Quick and Easy Dashboards with multiple interfaces and a selection of pre-designed gauges and charts. With SharpShooter Dashboards you can create beautiful, compelling data visualizations for your applications in minutes. Multiple Views of a single Dashboard. SharpShooter Dashboards is able to manage multiple views of a single Dashboard. They support both an embedded and standalone version. Features: Data Control and Data View SharpShooter Dashboards allows you to use the Data View to view and edit data from a data source. Chart Manager

System Requirements:

The Dunkelzahn-Avantgarde or, in other words, the nocturnal herd of cats, is the oldest of the two factions, founded in the early stages of the Mandate. Both teams of the faction are known to be skilful at casting and maintaining aggro-charm, and its members are commonly seen performing farming on their goat mounts. The nocturnals are named after the prince of beasts. Nightsfall has the highest average winrate of all faction. The nocturnals are composed of five members
