But I need a Specific version  
and it is not working A: I've had  
to use a . Using the below  
keygen worked for me, but this  
is not a certainty, this particular  
version may be unsupported. Q:  
Fetching data from a Restful  
API and displaying it with  
AngularJS, JQuery and JSON I  
am creating a comment box

---

application using AngularJS, JQuery, JSON, RESTful API and PHP. On every button click comment is added using AJAX with a RESTful API. I can see the data gets sent to the RESTful API and is put inside the data received array. I also confirmed that the response data is displayed on console.log. My problem is, how do I display it on my HTML page? The code

---

below only shows the data upon console.log. I need to display the data fetched from RESTful API. Any help is appreciated.

```
$scope.submit = function() {  
  $http({ method : 'POST', url :  
  "", data : $.param({ message :  
  $scope.message, username :  
  $scope.name } ), headers : {  
  'Content-Type' : 'application/x-  
  www-form-urlencoded;  
  charset=UTF-8' }  
}
```

---

```
}).success(function(data){
console.log(data)
$scope.comments = data }) } A:
You need to make a callback
function: success :
function(data){
$scope.comments = data
//callback code } 1cb139a0ed
```
