TextStat Crack With Serial Key Free Download For PC (Updated 2022)

TextStat is a simple-to-use program that capable of delivering statistics on your plain text documents to the TXT or HTML format. These include the number of paragraphs, words and tabulations, just to name a few. The interface of the application is represented by a standard window with a well-defined layout, where you can open a TXT item by using either the file browser or "drag and drop" method. Once you establish the output directory, file name and format, you can customize additional preferences. For instance, you can ignore capital and accent letters, as well as enable DOS text mode (ASCII). Statistics can be previewed within the main frame before saving them to file. They show the number of spaces, sentences, words, Carriage Return, Line Feed, non-printable characters, words per sentence, syllables per word, and so on. TextStat offers multilingual support and allows you to copy content to the Clipboard. The tool barely uses CPU and system memory, thus it doesn't put a strain on the computer's overall performance. No error dialogs have been shown in our tests and the program did not hang or crash. Program features: - Specifications: Multiple output formats: TXT, TXT(HTML) - Statistics: Number of paragraphs, words, sentences, lines, etc. - Word statistics: Word count, word length, words per sentence, etc. - Total statistics: Number of paragraphs, words, sentences, lines, etc. - Text processing: Convert text to DOS text, ignore upper/lowercase, ignore accented characters, set word delimiter, replace special characters with spaces, convert text to HTML, copy text to the clipboard. - Format conversion: Convert text to ISO-8859-1, EUC-JP, JIS X 0201, JIS X 0208, EUC-KR, UTF-8, ISO-8859-5, ISO-8859-7, EUC-CN, GB 18030. - Syntax check: Check files for syntax errors and word repetitions. - Collation: Exclude specified word from statistics. - Word delimiter: Set word delimiter in the text. - Text compression: Turn on/off for text compression. - Preprocessing: Turn on/off for turning on/off word repetition counting. - Regex searching: Search using

TextStat With Key For PC
