SEARCH Monday, December 18, 2013 CFO India is an accounting, taxation and financial services outsourcing solution developed by Accounting Solutio, an accountancy company in India, for the needs of the small and medium-sized enterprise (SME) community. CFO India has been developed with a focus on small business accountants for not only providing professional accounting services but also the ultimate financial solutions to small businesses. CFO India is a system that allows the individual accountants to have full control of their practice as well as providing full control over their client's data. The accounting software system has been designed to provide the accountants and their clients with the flexibility and control needed to improve the professional accounting experience and to assist them in maintaining an accounting practice with less risk of data loss or information misappropriation. The goal of CFO India is to make accounting an easy and stress-free part of your small business, allowing you to focus on your business rather than on keeping your accounting practice in check. CFO India provides a complete accounting software solution including the ability to import bank statements, accounts receivable, accounts payable, customer invoices, VAT invoices, bank statements, statements of assets and liabilities, statements of equity, rental invoices, payroll information, accounting journals and invoices. If you're looking for a more affordable solution, CFO India is the perfect addition to your business. CFO India is much less expensive than our competitors and provides all the same features. It
