Then we change the first string value with the C command, and finally we define a new search string: x x x 3.1.1 [Patched Version] Date added: 2012-10-23 5:31:33 tags: CK2 When playing as a Duke in Crusader Kings II (no wars as of CK2 2.8.1.1 patch), you can now perform a "forced disinheritance" on one of your vassals, even when that vassal is already a child or married.
