## Dune2000downloadwindows10 BETTER

, TOC General 1. Installation , Tips 2. Advantages , Configuration 3. Disadvantages 4. Other 5. See also , Solutions 6. Credits 7. About the Author 8. Contact 9. See also 10. Supplementary materials 11. Back to top Dune2000downloadwindows10 2. Installation The first time you run the program, youâll be shown a screen asking you to select a folder into which the program will be installed. Of course, you can make this any directory on your system, and the program will remember it. At the time of this writing, the program has been installed to a directory like this: C:\Programs\Dune2000downloadwindows10 The following instructions assume that youâre starting the program for the first time, and that you wish to install the program to the default directory. 1. Rename the file dune2000downloadwindows10.exe in Windows Explorer to something else like Start-up.exe. 2. Make sure that the program is not currently running On Windows 7 and higher, click the Start button. On Windows 8, hold down the Windows key and press X. On Windows Vista or Windows XP, press the Windows key, wait a couple seconds, and then press X. 3. Run the program On Windows 7 and higher, click the Start button. On Windows 8, hold down the Windows key and press X. On Windows Vista or Windows XP, press the Windows key, wait a couple seconds, and then press X. 4. Log in On the first time you run the program, youâll be asked to create a user account. 5. Select a folder to install the program Click Next to continue. 6. Confirm that the program will install the program to the default directory Click Next to continue. 7. Click Install A dialog box will appear to confirm that you wish to install the program to the default directory. Click Install. As noted previously, the program will remember this directory for future installations. 8. Close the dialog box When you close the dialog box, youâll be finished installing the
