Dress Style Exchange is the new feature that allows you to equip different clothing for your avatar, just as you would in real life.

1) Dress Style Exchange Dress Style Exchange is a new feature that allows you to equip different clothing for your avatar, just as you would in real life. Please note that Dress Style Exchange cannot be applied to other items you already own. This feature is currently under development, and we plan to introduce additional Dress Style Exchange features in the future. ■ Dress Style Exchange Operation After logging into the game, you will see the option to exchange clothes at a Dress Exchange Shop. You can exchange your current gear items with any other items that are in your selection screen. The top four items you have will remain unchanged, but the rest of your items will be replaced with their Dress Style Exchange versions. If you exchange your current equipment with items that have not yet been equipped, it will be canceled. The following 8 items can be exchanged: ■ Main Weapon Armor ■ Shield ■ Ring ■ Boots ■ Gauntlets ■ Leggings ■ Wings Some items that can be exchanged have a lock icon in place of their name. This icon

indicates that the item cannot be exchanged. You can exchange them with items that have no lock icon in place of their name. When selecting items, you can check the box next to your current equipment to select the Dress Style Exchange version. If the item's Dress Style Exchange option is not checked, the original item will be kept. In order to exchange items, you will need to select the exchange option. After selecting the option, you will be returned to the item's selection

DESIGNED BY LINK STARTING AT THE 2013 INSIDER COSPLAY SUMMIT. The Elden Ring resembles the FIP FIVE (Fantasy Interactive Pictures Five), a role playing game set in an imaginary world in which the goal is to unite the evil forces of "The Darkness" and the heroes called the "Elden". To this end, the Elden Ring is in a different world, and the world of the Elden Ring has been built from the legendarium of the Elden (which is closest to the world of the FIP FIVE).

The story will take place during the timeline of the Elden Ring when, during the time of "The Darkness" (which is a medieval fantasy that will learn about the modern times), the Elden receives a message that the Darkness has begun expanding. And so, they will leave the world of the Elden to save it from the darkness. To this end, banded together as "The Elden", the heroes will dare the challenge of the darkness. And as they venture forth into the darkness, they will acquire the power of the FIP FIVE.

The premise behind the Elden Ring will be that it will be an RPG set in the world of the Elden. As a special action RPG, the game is easy to pick up, and the story and the characters are fun to watch and to play with. Players will be able to freely create the fate of their character, and shall likely gather together to explore the vast world over several days. The game is a personal action RPG. The main weapon is your character's sword, and as they battle they will gather experience points to increase their skills.

All of the action RPG games of the past were created for consoles. With Elden Ring, we have created a game that can be played by the PC as well. The familiar style of a controller or keyboard will be supported in the game, and we will be developing the game as if it
