Wolfram Age: 11 The son of a soldier. A heroic being who used to live in the early times. His heart was stolen by light-like shadows. A mysterious plot. 2. THE CHALLENGE OF KING VALERIE King Valerie Age: 64 A ruler who looks after her people. A noble chieftain who is friendly and kind to his people. As a result of a tragic incident, she lost her relatives in Valoria. A dramatic plot! [BACKSTORY] The Dragon of Valor is the last of a series of dragons, an honor and nobility that each ruled over an area in Valoria. However, these dragons were constantly plagued by thieves who secretly stole and traded their sacred treasures. Without those treasures, the dragons' powers faded. Rackard, the Dragon of Valor, disappeared from Valoria without an heir. Fascinated by the disappearance, Wolfram and his grandfather, King Murvin, decided to become the Dragon of Valor's heirs. Wolfram is a young boy living in the country of Kinis, whose village was destroyed by an attack from light-like shadows. Wolfram was about to become a man one day, but the loneliness he felt as the sun set led him to dream. He heard Valoria's voice, and "a hero will awaken in a world full of hope." The voice guided Wolfram to search for Valoria in the middle of the night. Once there, he discovered King Valerie. Wolfram and his grandfather are children of Valeria, who was the wife of King Valerie. Together, Wolfram and his grandfather defeated the shadows that attacked them and rescued Valoria. After the shadows' defeat, Valeria was killed by their shadows. Her shadows dropped her blood on Wolfram and his grandfather. Wolfram and his grandfather fell into a deep sleep that lasted for 20 years. When they woke up, Valeria was placed on the throne, and Wolfram and his grandfather were crowned kings. Wolf

KINGDOMS WITH DIFFICULTY - It makes the game extremely easy to play as it removes the need to memorize any button combinations. This makes the whole game infinitely more accessible, which is a huge problem in the MMO genre. - The developers also gave well-made improvements to many of the combat mechanics, and their talents are finally coming in to play. Although most of this work is still hidden behind menu commands, they are much more useful than they initially seemed. The skill sets that are available in this game already present an extraordinary amount of gameplay variety. - In addition to handling the handling the intricacies of character and item management, the game is filled with lore that actually makes you care about the story and the characters. - Finally, the game's small but tightly integrated world is now actually an interesting place, with unique environments and an enormous amount of interesting story content. CONS: - The game is missing a massive amount of content, even in the current pre-alpha state. Because of this, players may be expecting a lot from the game, but the developers have put more effort into making sure that the game is balanced and features a strong combat system than they have into making sure that their massive list of ideas is ever finished. - Although the town service in the game is genuinely impressive, there are some quality issues with it which hold it back. The developers made the transition to Unity, and although that is a great benefit in itself, it is a major leap which has required them to add at least a few extra months to the development cycle. - Although the game has put many good changes into place, some of the more technical areas of the game are still run by dated technology which is sure to fade in the years to come. CONCLUSION: The game is in a really good state overall, and it is probably the one MMO that I would recommend at the moment. This game is far better than many of the bigger budget titles available on Steam right now, and with more content coming, it could be the game to end the current drought of great MMORPGs. THE LEGEND OF ZELOROG (100 / 100) An epic fantasy story where you take on the role of the last descendant of the elven race. GAMEPLAY: Players take control of a high bff6bb2d33

Now Commenting On: Grandy, Leyland both impressed by Odor's defense Grandy, Leyland both impressed by Odor's defense Email Print By Gregor Chisholm / MLB.com | ST. PETERSBURG -- The Rays' Spring Training has not been easy for everyone. With uncertainty about potentially moving to another city if ownership decides to sell the club, it's been a lot for the younger players to digest, as well as those who are trying to make the roster. The main person to face that hurdle is outfielder Sam Fuld, who is trying to get back to the big leagues after missing the whole 2011 season while undergoing rehabilitation from a torn ACL. Fuld entered camp Tuesday, and admitted Tuesday that he felt like he was out of his comfort zone in Spring Training. "I'm trying to get back to the way that I was playing when I had the injury the last time," Fuld said. "I feel like I'm carrying this over from last year, but it's good to be back. It's just a little tough because the other guys are doing better than I am. It's good that we're all competing." For a player that had a career-best.930 OPS with 55 extra-base hits and 34 stolen bases in 2010, his defense was his weakest point, as he was picked off 77 times in 442 games as a second baseman and outfielder with the Mariners. His major league career is defined by some spectacular defense, with Fuld ranked ninth in the AL in triples with 16 in his career and fourth in the AL in outfield assists with 55. Last season, he had one of the best outfield arms in the league, as he gave the Rays a 14.8 percent better outfield ERA and 1.2 percent better overall ERA in 2010 than any other team in the AL. It's a bit of a bold statement when the word "wow" is being spoken about a player who hasn't even played an official game since last season, but Fuld has been impressive during camp. He has made several defensive plays, including one against left-hander Ross Detwiler on Monday where
