
LockMyApp With Serial Key Free Download PC/Windows

[Download](#)

LockMyApp Free Registration Code Free Download [Updated-2022]

LockMyApp is a handy software designed to help you lock or unlock applications on remote Windows workstations. The program allows you to connect to a remote computer by entering the IP address and the port. For that station you can customize the applications that will be locked. The program offers a flexible interface that allows you to view all the running applications, lock or unlock them, and then optionally execute a scheduled task. It gives you various options to run the program with or without listening on the network. You can add passwords to the running executable files if you wish. LockMyApp Screenshot: LockMyApp Users: Here is a list of applications built into the software: It is also possible to add your own application to the list to be locked. If you like the software please consider making a donation. Thanks in advance for your kind support. Thanks for visiting our site. Please be sure to give us your feedback on our software by sending us an e-mail at sonya2@msn.com. Additive 6 October 21, 2007 Just a few minor notes regarding this little program: If you dont use it right away, you might want to reboot the computer after installing it, because starting up with the program running will cause some strange behaviour. It would also be a good idea to put the program on a USB-stick, and connect it to the computer you will be using the program on. I would recommend renaming the program's EXE file to something like LockMyApp.exe.old to avoid searching your program files every time you start it. I would also recommend adding the app to the start menu. Thanks Akashi 8 May 30, 2007 I think there is a few things this can do in Windows Explorer. If you open up My Computer right click on the drive where the program is installed and click Properties. You'll see the path to the folder where you installed the program. I was just going to give a negative vote based on the "sort of" features of the program. Locking things up can be achieved without the pro version by just opening another explorer window, and dragging the window from one to the next. That way you can access the window in its own separate space and nothing else will stop you. The program wasn't easy to launch without launching an add-in agent

What's New In LockMyApp?

LockMyApp is a handy software designed to help you lock or unlock applications on remote Windows workstations. The program allows you to connect to a remote computer by entering the IP address and the port. For that station you can customize the applications that will be locked. Popular Software In The same category : - 7-Zip 13.93 MB File Utilities - WinFreeze 1.0.2.0 Find and freeze all running programs or Internet Explorer pages. Then you can easily get started up your computer again or you can start it again from a specific folder where you can select the programs or pages you want to start up. 77.28 MB File Utilities - Program Unlocker Find and unlock all programs on local computer. You can also unlock the following types of programs: 43.63 MB File Utilities - WinLock Free Find and lock all programs on local computer.
