
Microinvest Warehouse Pro Keygen Generators !FULL!

Microinvest warehouse pro keygen generator keygen type wpiQ: Faster way to concatenate fields in pandas dataframe? I have a Dataframe as below:

```
>>> df = pd.DataFrame(columns=['name','age','country','year']) >>> df.head(5)
name age country year
0 juli 13 usa 1990
1 agnes 12 gbr 1984
2 karen 14 aust 1990
3 jerome 15 uae 1990
4 kousaku 16 japan 1990
```

I am trying to concatenate all the fields into one field. I am doing as:

```
>>> df["Age"] = df["Age"] + " " + df["Year"] >>> df
name age country year Age
0 juli 13 usa 1990 1990 1 agnes 12 gbr 1984 1990 2 karen 14 aust 1990 1990 3 jerome 15 uae 1990 1990 4 kousaku 16 japan 1990 1990
```

I understand that i can do this directly as

```
>>> df['Age'] = df['Age'].apply(lambda x: x+' '+df['Year'])
```

But i am just curious to know is there any in-built way of doing this? Edit: I am not sure if this is relevant to my question. In my particular case i have:

```
>>> df["Age"] = df["Age"].map(lambda x: df["Year"].map(lambda y: y+' '+x))
```

Any ideas why

Windows . Its .I
wanted to share a little
video of Donny
Deutsch at VCU last
night for the new VCU
Men's Basketball team

that will begin their inaugural season in the Atlantic 10 next year. Not only does Deutsch have a taste for pizza, he also has a very good understanding of the type of person that the new team will need to be when they hit the court at home. As the new VCU Men's Basketball squad prepares to begin their inaugural season next year in the Atlantic 10,

fans that are eager to see their school's first Division 1 basketball team after much of a long wait are faced with problems that may occur on the road for the Rams. As one of my good friends, Luke Dye, points out, the "late-to-the-party" fan will have to be ready to take a little advantage of the travel advantage that VCU will have over their opponent. The

late-to-the-party fan will also have to be ready to travel to an area where the students are not there to show their school spirit. For those that have been following my articles for some time, you might remember an article I wrote on the subject of the University of Kentucky starting up a new football program in 2010. The late-to-the-

party fan saw Kentucky's situation as a negative experience, having to face the possibility of watching a team that would be a half hour away with nothing to do on the way to their home town. That was a problem of the fans of the school. Fans that are new to the area are going to see that as a positive experience, with the chance to be a

part of something new and exciting. Fans that attend every game have seen that as a positive, as well, but they didn't stick around for the high school teams that were hit with low attendance numbers. Attending every game and being a part of the immediate family that has been with the team since the beginning of time has had its benefits, but it

has made some fans
homeless. Something
that the late-to-the-
party fan will have to
see for themselves is
that there will be a lot
of empty seats in the
Rams' "new" arena. On
top of that, it's the
home town of a rival
school, William
