In this action RPG, encounters are determined not by the random number generator, but by detailed data such as the number of monsters and traps you have seen. This gives you a sense of playing a completely different kind of action RPG. Also, all party members are initially prepared with a basic set of abilities. However, as the story progresses, abilities will be unlocked, and you'll be able to overcome situations that you're having problems with. * A Variety of Action RPG Elements As you go through the story, in addition to dungeon exploration, you'll have multiple options for combat, and there are also unique actions that have just been introduced in this RPG. Unlike, most podcasts, my guests usually end up inviting me to come visit them in a few weeks. But this week the architect who designed Kavalier & Clay’s new offices came by for an interview with me. The Architect is Paul Mayne Smith, and he’s an architecture buff who has a portfolio full of cool projects. Spurred on by his interest in the podcast, Smith was all set to come on and let me hear about his fascinating life, but as fate would have it he ended up joining Kavalier & Clay before we actually started recording. This was awesome to witness, because it’s a rare opportunity to listen to someone who’s passion for a project is so strong that they end up working on it. From small projects to large, you can expect to hear all about it during the course of this podcast. Smith’s visit wasn’t just about kicking around ideas for new podcasts, but he also ended up giving me a tour of the Kavalier & Clay offices. He was very gracious in letting me drive him through some of the spaces. I’ve never been in the space before, so it was a chance to see the kind of spaces that Kavalier & Clay has come to know. On top of that, he ended up coming down to Austin, and as a birthday treat, we got to spend the afternoon together. If you don’t know this, Smith is also a musician. He plays guitar, and is getting ready to record an album with his group, One for One. He’s also a jack of all trades and he makes pretty cool stuff. From furniture to video games to even many of the doors, Smith has a knack for all sorts of DIY projects. So if you ever run across him on the street in New York, you can expect a friendly wave and some questions about the Kavalier & Clay offices. ■ **Rule number one: Don't get scared! The battlefield is rocky and full of thorns and claws, but with a little courage and determination, you can defeat the enemy. You are prepared to enter the Land of the Elden Ring as a fine warrior using others' equipment, weaponry, and spell cards to reach that goal! It is your own strategy that will decide the fates of your party... is your bravery and determination just strong enough?**

■ **Rule number two: Deceive to protect, and hide to evade During battle, the party is best dealt with by a group, and often, you must utilize your companions' strength in order to ensure victory. It is in this situation that you must twist the pillars of others' awareness and draw them into your own trap. If you are capable of noticing your companions' next move and if you are alert to their thinking, then you can use your knowledge of their state of mind to deceive them. You can even surprise them all with your devious strategies...there will be no victory if you do not take risks!**

■ **Rule number three: Commit to battle! Your companions are your allies, and in order to be victorious, you must awaken your true power and stand up to the enemy.**

Lands Between Review(PSV) Reviewed by Soulhades Here it is, our review of Lands Between. I love the game, the music,

the gameplay, and the lighting. The only annoying thing is that at times, the audio for one of the characters being killed feels really loud. And there are some times when sound glitches out, including people and voices just randomly not playing. But apart from those things, the game is amazing. While this is a typical RPG, this one is not like the other games in the genre. The game uses an Action RPG style, instead of the usual turn-based battle. The battle system is turn based, but you can do more than that in this game. For one, your companions have attack range with their own attacks. While you control the main characters, they will also perform attacks. This also allows for some flashy sequences if one of your companions does a burn down on an enemy instead of you. And some attacks have 1 hit effect, some
