"We hope to see your smile when you play the game, and we will continue to improve it until it becomes your favorite game." -Elite Game Studio "There is no mere difference between Elden Ring and our past games, but an essential change that is like a breakthrough into a new world." -Elite Game Studio "The game world is divided into four types of land, the towns, which is the largest. In addition to the vast main story campaign, there are also several side dungeons for each town." -Elite Game Studio "The battles, maps, and characters of our past games are improved significantly, and we have taken to the next level by adding new elements such as the transition between town locations and a completely new system for buffing your party." -Elite Game Studio IN-GAME REVIEW

- ◆ Rising in the Underground Dungeon: The core of the game is its deep and detailed underground dungeon, which you must gain access to by catching all the over-priced Goods in the town while avoiding fatal traps on the path to the dungeon. While exploring, the world is divided into four types of land: mountain, desert, town, and underground dungeon.
- ◆ Town: Towns are divided into two types: city and town. Towns are where Goods are sold, and monsters spawn, so follow the three simple rules for making the most out of your town. The three rules are:
 - Avoid the monsters
 - Don't disturb the monsters
 - Don't be greedy
- ◆ Keep track of your items: Stay close to the shops and work smart to keep your items from running low. A variety of shops, such as a bakery and a weapon smith, are present in each town. By visiting each shop, you can learn about the culture of the town, as well as new options for your battle.
- ◆ Equip a variety of weapons, armor, and magic: With an element of chance in the stats of each item, you can make your own stats by combining a variety of items. However, each item has a limit on how many times you can combine it with other items. This is how to equip a variety of items, and many other factors come into play to form your personalized character and skill set.
- ◆ Explore, change the weather, and discover secrets: Explore to expand

Features Key:

Roleplay RPG Gameplay:

- Expand the World with Vertical City Construction and Job Advancement In the world of Elden Ring, there are big settlements called "cities" which are surrounded by vast prairies called "zebras" and "fields." You can freely roam the vast world and expand your character as you play. Research the natural world for new quests as well as construction sites to build new cities.
- Multilateral Online Battles In addition to exploring the world and taking on quests, you can also challenge other players directly in town battle modes. You can easily join a battle if there's a match.
- Enjoy an Intimidating Role-playing Drama A rich story is told in fragments through monsters and other characters. As the mystery unfolds, you begin to realize the fear that you have in your mind, emotion, and memories of its roots.
- A High Level Experience System to Rank Up The level system will rate your character's degree of strength based on the development of your individual skills. Level up your character by selecting special skills or feeding your willpower. The level of your character directly affects how you fight in a battle, how your character reacts, and even how you obtain quests. The level will also determine the number of items you can equip, and the effects of your class/skills.

Three Basic Classes: Fighter, Wizard, and Knight In addition to being an Eladain, you can also choose from Fighters, Wizard, and Knights. The Fighters are a class who are specialized in training, equipped with a blade, and equipped with powerful weapons. The Wizard are a class who are specialized in magic, equipped with wands, and have various spells, shields, and protective item. The Knights are a class who specialize in horse riding, equipped with a knight's armor, equipped with a powerful and strong weapon, and are very strong physically.

Hundreds of Equipment to Collect The number of items increases through various quests, and the knowledge you gain will raise your character's level. You can equip various items, as you wish. To collect items, you go to the town and take quests. • Unique Quick Battle System In addition to the large open map, there are special zones called arenas. You can enter a mini arena to play a quick battle with an enemy one at a time. Quick battle mode is great for socializing and venting your anger.

The theme of the game is the old fantasy, where evil and chaos are common and where the player's character fights against the overwhelming power. These elements come out of the game's world creation, which brings elements like large forests, deep dungeons, and ruins. Through battle, you will acquire new combat skills, such as a long-range combat style. You can then connect with others in a world that allows you to play with people from all over the world. They will also want to connect with you, feeling a sense of achievement together, and they will be able to play in a far away place thanks to the game's asynchronous online feature. Do you watch anime?

Not really. However, when it comes to Japan, I like to watch J-Pop, dramas, and movies that are made in Japan.

Can I ask if there's a Japanese actress you admire?

I don't really admire anyone, but I do remember watching Kamen Rider Fourze for about a year back in 2015. He was a new Kamen Rider that looked amazing and was very cool.

What do you like to play?

The fifth Kyoutai of the Sandbox Kingdom is beating me left and right. I've wanted it forever, so I've saved up a lot of money to purchase it at an astounding price. Also, I recently purchased a figurine of Yoshimitsu from Nagasawa City.

Cutaneous manifestations in Churg-Strauss syndrome. Churg-Strauss syndrome (CSS) is a small-vessel vasculitis associated with bronchial asthma, peripheral eosinophilia, and extravascular eosinophilia. Peripheral eosinophilia, which usually disappears after glucocorticoid therapy, has been regarded as the most characteristic feature of CSS. The cutaneous signs of CSS are relatively unknown and controversial. The aim of this study is to provide a comprehensive description of the cutaneous manifestations of CSS and to describe the time course of the lesions. A single-center, retrospective study of 85 CSS cases identified between 2007 and 2016 in the dermatology department of Necker Hospital was conducted. The inclusion criteria were the presence of CSS, eosinophilia, and biopsy of one or more clinically involved lesions. The cutaneous manifestations were described and the observations related to the course of the disease were analyzed. One hundred and five skin lesions were described in 85 cases of CSS. Half the patients had the lesions on the head and neck and 39% had nail alterations (onycholysis or onychomadesis). One-third of the patients had skin disease preceded by asthma. The cutaneous lesions were characterized by predominantly indurated plaques and pustular lesions of the head.
