Rohos Logon Key Free is an intuitive and easy to use application for Windows that turns your USB flash drive into a security token. The application enables you to make sure that no other person is using your workstation. You can use this key to access Windows, and as a result you can use your computer without entering your usual password. With its help, the computer is still protected with a password

---

that you have to type every time you want to use it, but the generated password has a higher length, which makes it stronger. The application does not save your password in a database, so you don't need to worry about it being stolen when you use other PC's. Rohos Logon Key Free is an ideal tool for the office, for the home or even for travelling. Once you have installed Rohos Logon Key Free on your computer, there are two options for configuring it. Firstly you can select the user of the computer that you want to assign the USB security key to, and then you must assign the new password. Rohos Logon Key Free comes with all the necessary drivers and Microsoft Windows compatibility. The license allows you to use and install this software on 2 computers. Rohos Logon Key Free
