t This is the April 2018 issue of SKIN-KAST. Make sure you share with your friends through social media! Subscribe here. 1 / 16th. It's an important day for anyone who owns or works with roosters—it's the birthday of one of English author D. H. Lawrence's many roosters, Skipjack. 2 / Are you new to the world of sexual intimacy, or already an old hand? Viewed through a new lens, the term 'tenderness' can be understood in a broader and deeper way than the widely recognised intimacy of sensual, soft, and intimate closeness. The ancient Chinese conception of five 'treatments' gives some clue to its deeper meaning. 3 / Why not try walking meditation this April? As you go about your regular duties and pleasures, try noticing your reflections on the being that you are. Each of us is such 'a being'—as are our companions. That is why we have been born. Clients tease out five parts of sexual intimacy that cannot be ignored: acceptance, appreciation, appreciation for pain and discomfort, communication, and surrender. The 'surrender' part must not be confused with the 'conformity' that is an active ingredient in many sexual fantasies. Surrender is not disobedience to our calling, but obedience to the nature of sex. It is by being defeated inside that we find our highest freedom—and love; which is to say, we find our true nature. 5 / Why can't we simply be who we really are? Each of us is a spiritual being, albeit an incoherent, unconscious one. Our loves are not just romantic or sexual affairs, but chances to be ourselves. A: Since you already asked this on reddit you can now start using spoiler tags, as the question is not public anymore. I'll answer here. No, this is not a lie! The game is called Cat Town and this is the cat Whisperer's ambition which I'm trying to realize with this story. You can find more information about the game in the press kit. About The Cat Whisperer You get a whole bunch of boring normal looking cats from the old town. On your adventure, you move between buildings, go up and down stairs and dig tunnels through the ground. You even get to talk to the cats and make them do things for you. These cats appear in your path and say what they want to tell you: No, I'm fine! Thanks! Please! Please! You'll find out soon! None of the puzzles require any knowledge from puzzles, but the game contains lots of these, so you should have a rough idea about the story. In the end, you're going to the old town where everything is back to normal, but with a slightly changed appearance. It's even possible that you'll see the old mayor again. And you can also see a video with me talking about the game: {}. [*]. Am. Math. Soc.*]{}, 17 (2004), 297-325. R. J. Baxter.
