VLC Player is a free and open-source cross-platform multimedia player and media framework that supports audio and video playback.[4] VLC can play all multimedia files, but is especially well known for playing video files of various container formats, such as MP4, Ogg, WebM, and Matroska. VLC can be used as a media player, but is more commonly used as a general purpose multimedia player and as a server for network streaming.[5] As an easy-to-use application, VLC supports many media formats, including audio CDs, online streams and audio podcasts. With VLC's advanced playlist support, it can be used to create and edit playlists that automatically play when files are added to the playlist. VLC can also be used to record or stream to other computers. As a library, it supports plugins, which can extend VLC's functionality. Requires advanced hardware for best performance. VLC is currently not supported by Direct3D, but 2D graphics acceleration is still supported, using Windows Media Video 9 and Matroska container. A full list of supported hardware can be found in the VLC FAQ. You are charged for the same monthly rental of Blender every time you start Blender unless you pay for a Blender Pro subscription with Blender Cloud[15] after your initial subscription. You will be charged for Blender Cloud on a monthly basis. You are not charged for Blender Cloud the first month you subscribe, which is \$39.99 USD/month, and will be charged for that amount the following month and subsequent months unless you pay for a Blender Pro subscription with Blender Cloud. Blender Cloud subscriptions are the only subscriptions that will permit you to use Blender Cloud without a Blender Pro subscription. You will not be charged for anything while your initial subscription term is active. If you cancel or extend your subscription after the initial term, your subscription will be charged for the current month's rental
