I know regex is the correct tool to do this but I also want to use some internal coding to do this. I am using Java to do this and for doing conversion of this type A: The simplest solution would be to use IntStream: String[] array = IntStream.range(0, 3) .mapToObj(i -> Integer.toString(123 + i)) .toArray(String[]::new); You can read more about IntStreams here. If you insist on writing the code yourself, I'd suggest using IntStream
