Extension of a Noetherian
topological ring Let A be a
Noetherian topological ring and
 I be an ideal of A . I am
wondering whether I is
closed under the addition of
rings: $I + I \subset I$. I do not
know whether this holds under
the weaker assumption that
 A is a Noetherian ring. A: If
 A is Noetherian and I is
proper

{27 November} Tripper was
born in 1920 but he died at 9
years old. His mother asked the
doctor whether he was sick or
well. The doctor looked at him
for a long time before
answering. "Will he live?" the
mother asked. "If he lives, it will
probably be a very short life,"
the doctor replied. "But he's
alright now" said the mother,
"and he'll keep on being alright
forever." "He'll probably live to
be about 12," said the doctor.
"The doctor was right," said the
mother. "About 12 years later,

there came a woman who came to the doctor with the sad news that her little Tripper was dead. "No," cried the mother, "tripper was alright yesterday morning." UPPER DURANGO, Calif. (KFSN) -- Newly released video of a murder in the city of Silverton shows the suspect, Alfonzo Fernandez, is dragging the victim from a car into a well, shooting him more than 20 times. The video, released by the U.S. Department of Justice today and reviewed by ABC7 News, shows the victim, Mike Reese, lying face down in the well with four shots to the back

of the head and twice in the back of the body. Fearing for his life, Reese rolled over and shot Fernandez in the face, hitting him in the right side of the face and the right jaw, according to police. Fernandez turned and ran down a hill into a ravine but was later found dead.

1. Field of the Invention
This invention relates generally to models for measuring the number of additives such as a filler in a specimen and the percent of such additives in said specimen. More specifically, this invention relates to such a model which

has great utility and versatility for various applications. The model includes an additive dispensing unit for dispensing the additive from a carrier to the specimen and an additive detecting unit for determining the number of additives in the specimen and, hence, its percent of additives. 2. Prior
