- You have just arrived at the gallery. That's a nice place, quite luxurious. - And what did you expect, after all you always seem to be right at the right time. - There are not many people at the gallery. It seems to be quiet. - You came with a simple idea in mind: "I want to see all of the art that I see." - Just how can this be achieved? - Art can be found in various forms, in various materials. To some it may appear to be trivial, while others may enjoy it for its value. - You can find art in a variety of styles, from serious paintings, to cartoons, to illustrations. - Try to discover the meaning of art in all of its forms. - That way you will definitely find everything you need to make your stay a bit more pleasant. Features: - The story of a young artist who has come to visit her gallery to see what she will accomplish in life - Discover a variety of art styles - Move around the world of "The Art" - Unfold the story of a passionate artist - Follow the story of Kholis - The adventure begins Get ready for a revolution in music. This music game combines the gameplay of a flying game with the story of a music legend. Good luck on your way. Game "The Legend Of Hero" Gameplay: - You just arrived at the studio. You have come to check out some new music, but who is it, who is playing? -

With a vibrant sound the music producer in black is ready to work. - The first inkling of the new song is about to be unleashed, but what will this song's flavor be like? - But why is he so quiet? There must be something wrong. - Yes, something is about to unfold. You are now being able to see the new song in motion. - As the melody unfolds, you realize that some of the notes are not in tune, even before he plays them. - And you have no idea why there is a ruckus in his head! - But that's enough. You need to focus on his music. - Some of his sketches, and a discussion with his right hand. There is something on his mind. - So this is the legend he wants to create: The music "The Legend Of Hero" Features: - Discover the "Legend

LOGistical 2: USA - Nevada is a large open-world, strategy, puzzle game where you transport different cargoes to complete all the towns and businesses throughout the state. including **Casinos, Golf Courses, Ghost Towns, UFOs, Hoover Dam** and a **Gigafactory**. Each LOGistical module has many unique things to do. In **LOGistical 2: USA - Nevada** you can: **Fix roads to towns, businesses and throughout the complex road system. Upgrade minor roads to enable 8 ton, 20 ton and much larger trucks to traverse. Roads to towns and businesses are all of the highest quality, so don't need upgrading. Find some of the industries**

throughout the map. Upgrade them so you can build your own. Complete enough businesses and they will build industries for you with the "Business Industry Cycle" (BIC). Incomplete towns will allow an industry to be built. Once the town is complete you can build more. Buy a gold mine and then complete casino businesses to play the mini-games within the casinos. Change surplus cash into truck boosts. Over 150 industry types. Over 50 business types. Businesses don't consume resources. Module includes contracts to complete for those not knowing just where to start. Discover UFOs, Ghost towns, a Gigafactory, Hoover Dam, Burning Man, ++LOGISTICAL Summary The whole game is a huge puzzle while each town is its own little piece of puzzling. There are thousands of town and businesses to complete. Plenty of towns are easy enough. Some take complex planning. Do them in your own order. Get bonuses for completing regions and contracts. Some cargoes are easy to get. Others you have to create in industries. Use existing industries and build your own. The further you get from the start the more strategies you have to use. Boost up your trucks with bonuses. Last truck delivering gets the bonus. The towns, roads and map are to scale. Current or historical

industry placement. It is very educational as well as entertaining. There Is Plenty More to Keep You On Your toes. Towns consume the cargoes you are trying to get to completion. Big trucks are great for moving lots of stuff, but can't travel everywhere. There are lots of broken roads that need deliveries. Upgrade the industries for better exponential throughput. Cargo stores can sure come in handy. What! I can't take my big trucks across the water on
