Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users. Created by David Baszucki and Erik Cassel in 2004 and released in 2006, the platform hosts user-created games of multiple genres coded in the programming language Lua. For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. Roblox is free to play, with in-game purchases available through a virtual currency called Robux. As of August 2020, Roblox had over 164 million monthly active users, including more than half of all American children under 16. Although Roblox has received generally positive reviews from critics, it has faced criticism for its moderation, microtransactions, and exploitative practices directed toward children. Because of this, YouTube channel HDStarCraft2, now known as HeroesDivide, has decided to join up with Blizzard and host its own mini-series called Heroes of the Storm Academy, providing free coaching and in-depth advice for newcomers to the Heroes of the Storm esports scene. The first video shows new players what they can expect from the esports scene, including some basic tips and a rundown on the league's circuit. It also offers insight on how to handle the pressures that come with the scene, how to deal with a boot camp, and what to expect from the different regions' tournaments. The second video dives into the basics of Hearthstone, and aims to teach more experienced players the best and quickest routes to a winning deck in the game. This is the first video in what the channel hopes will be a "series of videos that are designed to help aspiring players, hopefuls, and competitors begin their travels in the world of esports." For more on the channel, you can check out our interview with the Heroes of the Storm esports division and our look at the HGC Pro Points regular season. Heroes of the Storm (HOTS) is a free-to-play 5-on-5 Multiplayer Online Battle Arena game, developed and published by Blizzard Entertainment. The game is set in a futuristic universe, and players participate in matches between two teams of five heroes each. Each hero has a unique card collection and card-building systems, allowing a large degree of strategy and customization. Players also have the
