The State of Health Care in Texas is relatively healthy. Consequently, state government should be ready to fund research and development programs to explore new and innovative solutions for health care. Among the areas ripe for new research and development are: 1) prevention of contagious diseases, 2) development of new techniques for cardiovascular problems such as atherosclerosis, and 3) development of new ways to deliver needed care. Other issues highlighted in this year's report are the inequities in health care by race, class, and gender and the high cost of health care. The problem of mounting cost is likely to require decisions to lower expenditures in the future.PROVIDENCE — If Providence is finally emerging from a two-decade funk, there's no question that one of the keys to its return to the ranks of the NBA's elite is Nate Tibbetts. The national leader in blocked shots, the 25-year-old big man has helped bring the Friars to the brink of national prominence. After Providence lost the first meeting of the season with the Chicago Bulls, there was some question about whether the Friars would be able to regain their status as an elite defensive club with Bill Carmody as coach. But Tibbetts brought an energy about him and his teammates which had been missing. Tibbetts led the Friars in the regular season. In the two games against the Bulls — in which they missed the playoffs, having fallen short of a Top 16 seed and an automatic bid to the NCAA tournament — Tibbetts equaled the Bulls' league-leading number of blocks in two games. He played
