## Sherlock Holmes: The Silver Earring Crack Fixed Highly Compressed

Says every child who ever watched the show as a child (including me). I love this bullshit explanation of how things are actually 3D, but it doesnt even remotely make sense. Unless he means the third dimension is space and time compressed to two dimensions. The acting and dialogue in these one-hour, one-episode dramas are remarkably solid and very much in tune with the character of Holmes in Conan Dudleys excellent adaptation of the stories, Sherlock Holmes. Cumberbatch brings a grounded, nervous energy to the part that works particularly well. He especially shines in the repertory casting of Watson, who disappears entirely for most of the first episode and who is given to monologues that are very tight, witty and funny. Also providing some real laughs are Colin Morgan (Trainspotting) as Holmes cold-blooded friend and confidant, Dr. John Watson, and Martin Freeman as the immaculately-coiffed Watson. Their humor is of the dry British variety. They would both make very good sitcom additions to the idea of Sherlock Holmes for an HBO revamp. The BBCs decision to keep them in shadows for most of the episodes adds a wistful quality. Theyre especially wonderful when they take to the road. Freeman was born in Brooklands, England, and more often than not he seems to be a citizen of somewhere other than just the UK. He is so convincing as an American in Sherlock that there is truly no telling that the camera isnt still on his character. There is a scene in the first episode where Watson is walking through a market. Suddenly, he finds himself entranced by some vegetables, and is thoughtful for some time. Sherlock is heard from offstage, asking, "Do you like these brie tomatoes?" Watson replies, "Theyre like human souls." During that exchange, we see everything from the angle of Holmes. He is amused at the language that Watson is using, and Holmes says, "I wont ask what he means." The joke is not lost. Theyre talking about a heifer who made it to the market by driving on the wrong side of the road. I cant say the same for the dim little plot that follows. Its confusing, illogical and frustrating. But in that moment, every character in the picture is comic.
