I know I'm being a hater, and I don't want to be, but Texas Chainsaw 3D is a bit of a disappointment. While the 3D is used well and there are a few good moments, the film simply isn't as fun as it was when it was first released. It's meant to be a sequel, but that's where the uniqueness ends. It's hard to think of the modern remake of The Texas Chainsaw Massacre, The Howling or The Hills Have Eyes as much more than repackaged old movies. Trying to get behind all the marketing hyperbole, it's just a gore-fest with a few new faces. As I said, all of this naturalism and sensitivity is undermined in the final third. There is too much panic to the plot, which evolves into Leatherface's escape. For a story about someone being executed, there is really not all that much in the way of tragedy, only the occasional bloody face in a makeshift casket or getting a headcrab splattered on your face. After all the fear and tension leading up to the final fight, Leatherface escapes with a chainsaw in hand and runs rampant through the woods, screaming like a banshee. What happened to the final showdown with Leatherface after they caught him? He ran off and killed someone else. If the film's premise was, "I'm done with playing nice with the townspeople," the film should have played it out in the final third, and maybe the final scene would have been the final scene. Unfortunately, this means that after a lot of build-up, Texas Chainsaw 3D culminates in a shit commercial for a completely fictitious Texas Chainsaw. The very fact that it took so long for Leatherface to kill someone is part of what makes this whole scenario so ridiculous.

The rest of the film is a meager excuse for a plot, a movie-ish excuse to show off chunky chainsaw models, a barbecue picnic and a brain-dead finale that leaves little thought as to what happens. Though Hooper once again delivers his trademark shocks, the script, helmed by directors Sean Cunningham and Steven Quale, remains an unpleasant mess of the first film and, it seems, the franchise. While 'Texas Chainsaw Massacre' and 'Texas Chainsaw Massacre 2' opt for a straightforward, non-campy approach to the slasher genre, 'Texas Chainsaw Massacre: The Next Generation' attempts to be "edgy and provocative." The story is dull, filled with tacked-on, disposable characters, and it even seems to defy the tenets of logic by deciding that Leatherface can single-handedly kill the entire town with no money, no gun, no accomplices, and no chainsaw. But, despite all that, Hooper's gift for the macabre continues to shine, making this one of the best Texas Chainsaw movies to date. Rarely have the words 'Duke of Weselton' and 'Texas Chainsaw Massacre' been more fitting. An unholy marriage of cheap camp that apes a franchise you can't wait to trash, Texas Chainsaw 3-D destroys by aiming directly at the feminine side of the audience. Admitting that 'women on the prowl' is its 'Killer Kidnap' and Girls

Gone Wild initiatives, Texas Chainsaw 3-D is a one-note, fat-headed cash-in turd that only diehard fans will find worthwhile. To avoid the awfulness of Texas Chainsaw 3-D, the next film takes the characters out of the new-in-1974 setting of the first sequel and into the woods of 1974 again. Luckily, veteran makeup artist Tom Savini returns to lend his expert techniques to horror once again, much to my delight. 5ec8ef588b
