What's New in the?

Run It All starts, then checks if there are still active processes in the system. If there are still running programs, it will show you the list of the programs. If you want to close the programs or stop them, just click the program name in the list. When you close the programs you need, press the

"Stop Process" button and you can open programs again. Features: - Automatic process list for programs - Can be used as an application launcher - The ability to run programs from the list - Displaying processes with path - Can stop programs - Can show only processes you want to stop - The ability to add/remove programs from the list - You can also stop programs by pressing "Stop process" button - You can cancel programs and set them to start on a specific time or a custom time. You can create folders and have separate desktop folders for each of the running programs, by specifying their path in the list of running processes. Note: This software can be run on Windows 98, ME, 2000, XP, Vista and Windows 7. Update history: Version 1.2.0 is just a fix for Windows 7 version. New version is coming soon. Changelog: Version 1.2.0 - Fixed issue in Windows 7 version - Changed order of processes in the list - Fixed issue in Vista/Windows 7 Version 1.1.1 - Fixed issue in Windows 7 version Version 1.1.0 - Fixed compatibility issue with Windows 7 - Fixed issue in Vista/Windows 7 Version 1.0.4 - Fixed issue with Vista/Windows 7 - Added language to Windows 7 version Version 1.0.3 - Fixed issue with Windows 7 - Fixed issue with Vista/Windows 7 Version 1.0.2 - Fixed issue with Vista/Windows 7 Report bugs: Please report bugs, other ideas, feature requests etc. on the Run It All website. Contact: Contact Run It All project at Suggestions and other notes: If you find Run It All useful, you can support the development of Run It All. Your ideas and suggestions are welcome. Credits: Thanks to Jarno Wintuikoski for providing the source code of running programs from a list. Also thanks to Jonathan from for providing the source code and suggestions.
